

International Management Trainee

About S.F. Express

Founded in China in 1993, S.F. Express has grown to become one of the largest express delivery companies in China. We have robust presence in Greater China and have expanded our footprint into the Overseas Region covering Japan, South Korea, Singapore, Malaysia, United States, Vietnam, Thailand, United Kingdom and many more!

In our quest to continuously improve and maintain our position as a key player in the express delivery industry in Global, we put great emphasis not only on growing market share but also on our stakeholders including employees, customers, service partners, as well as the community where we operate our business. We are committed to doing our business based on our core values which form the building blocks of our corporate culture and help build trust in our organization.

There are many opportunities for employees to nurture and secure their growth and development at both personal and professional level at the S.F. Express. To cope with our rapid expansion overseas, we are looking to recruit people of high caliber from around the world so that we can capitalize on the knowledge of a diverse workforce to maximize our growth potential.

Management Trainee

We are now recruiting management trainees to support our business expansion in existing or new international markets! Our Management Trainee Program is designed to nurture and develop future leaders in business management and professional functions to support us in driving greater business success and providing the best service for our customers.

About the Program:

- 1-year development program that provides a comprehensive view of our business operations.
- Gain hands-on and practical industry experience in various fields of expertise such as Operations, Sales, Marketing, Product, Customer Service, Finance, Human Resources, and Corporate Planning. **(Finally assigned to Finance or Sales & Marketing in KR)**
- Rotate between different teams within an assigned function including the learning at our frontline operations at service stations and distributions hubs
